Safety Experience

Inadvertent overhead panel switches activation when using sun visor

⚠️ Potential effects

- 🗨️ Loss of ADIRS
- 🌀 RAT deployment
- 📶 Loss of some flight envelope protections

✅ Recommendations

- 🌿 Handle sun visor with care
- 🔄 Report cases of free rotation of ADIRS switches
- 💡 Remain mindful of inadvertent control activation inside the cockpit
- 📋 In case of inadvertent switch activation, follow ECAM and QRH checklists with active crosscheck during recovery procedures
- 📶 Report any anomalies on cockpit control
